# Interior Design website Style Guide

Interactive features

1) **Hover:**
I have made shadow styles over hover so that element gets more focused when a user interacts with it.

2) **Social Media Icons:**
I have made social media icons Facebook and Twiter, Icons size are 30px and in white color because the footer background color is purple.

3) **Links:**
On the links color of text is change from light purple to black and also shadows of buttons will appear while mouse hover.

4) **NAV Menubar:**
when cursor is on NAV menu we shadows with be black color instead of gray.

4) **Working Pages:**
The website have 4 pages:
Home Page:
Product Page:
Category Page:
Contact Page:
